

**State of Michigan, Department of Health and Human Services**  
**SFY 2024 Behavioral Health Code Sets, Charts, and Provider Qualifications**  
**Document Layout & Tab Objective**

This workbook is designed to incorporate multiple service code and modifier information sources into one document to facilitate access to key information needed in support of capturing services provided to MDHHS beneficiaries.

This version of the document was last updated on **March 28, 2024**

MDHHS will begin requiring provider group modifiers on all encounters for all non-team-based services beginning in SFY 2022 with exceptions for the following services:

- Select Supports Services** – H2015, T2027, H2014, and T2015 were identified by workgroups as not requiring a provider group modifier because the rate paid to providers to render these services does not vary by provider group (i.e., providers with a bachelor's degree or higher get paid the same as providers without a bachelor's degree).
- ACT** – MDHHS is requesting to include the provider group modifier on all encounters for this team-based service to better monitor who on the ACT team is providing the face-to-face contact.
